The vision of The Norwegian Equestrian Federation

"Rideglede for alle"
[Horse riding-joy for all]

Strengthen facilities operated by local riding clubs
Facilitate collaboration between riding clubs and private landlords
Provide for multi-use facilities, including collaboration with the trott industry
Allow for more county and municipal facilities
A sustainable riding club as a good arena for horse sport development
A social meeting place for young riders that offer a broad range of activities for the horse and rider
Typologies investigated

Rodeo

Corral

Ranch

Hacienda

Rétir

Icelandic - réttir `rounding up` / `gathering`
CORRAL

Latin - currere “to run”, Portuguese - curral “enclosure”
RODEO

Latin - rotare "rotate". Spanish - rodear "go round" / "to surround"

Organisational concept sketch
Use: Heavy work, such as plowing fields or pulling timber, yet light and agile enough to be a good riding and driving horse. They are also sure-footed in the mountains. They are considered very good driving horses, and are commonly used in everything from competitions to tourist transport. They are also used as a sport horse, particularly in combined driving.

Withers: 1.3-1.4m

Use: Work, draft and harness horse. Known for its pulling power and agility. Also used as a riding horse. The Dole Gudbrandsdal has also been crossed with Swedish Warmbloods to produce riding-type horses.

Withers: 1.4-1.6m

Use: Highly versatile in use. Great strength, and its suitability for both riding and driving. Thanks to its strength and endurance, the breed is suitable for trail riding and serving as packhorse. Its smooth gaits make it well-suited for therapy riding. It is also used for junior harness racing, dressage, and jumping.

Withers: 0.9-1.4 m

Use: The Norwegian trotter is a strong and hardy horse, mostly used as a racehorse (trotter) due to its speed and agility. Also used as a riding horse with its good temperament.

Withers: 1.5 - 1.7 m

Shagya - Arabian

Use: This breed is recognized as a riding horse, and is also driven in harness. It was a hardy cavalry horse and is now popular in sport horse disciplines such as dressage, eventing and endurance riding. Perfect for therapeutic riding due to its soft movements.

Withers: 1.5m

English Fullblood

Use: Thoroughbreds are used mainly for racing, but are also bred for other riding disciplines such as show jumping, combined training, dressage, polo, and fox hunting. They are also used in dressage and jumping.

Withers: 1.6-1.7m

Morgan Horse

Use: All-round horse. The Morgan breed is known for its versatility. Popular used in western activities. Dressage, jump, field, draft and as general riding horse.

Withers: 1.4-1.6m

Hanoverian

Use: Originally a carriage horse, infusions of Thoroughbred blood lightened it to make it more agile and useful for competitions in dressage and jumping.

Withers: 1.6-1.7m
