Site plan showing the barn in the middle of the field in Rendalen.

First day at Eidsvoll Verk.

Wet and cold morning in Koppang.

Sleeping situation near Espa.

Barn located in Koppang. Older barn with thick logs constructed using the "lafte" technique. The structure is slowly decaying, and would need some attention. The barn consists of three smaller rooms with no real flooring. Footprint: 20x9m

Barn located in the middle of a field in Rendalen. The facade is in good condition with the inner wooden structure still intact. One big open room will need some refurbishment and there is no active programme existing today. Footprint: 10x8m
