I can highly recommend the Gestapo to everyone, 2014
Prior to the family's evacuation in 1938, 'Ich kann die Gestapo jedermann auf das beste empfehlen' refers to the few words that Dr. Sigmund Freud added after his signature in order to be granted an exit visa. Fifty years later this report was disproved yet historical records have continued to perpetuate the myth until the present day. Citations implicating five published biographies are presented with tipped-in plates of Freud's unoccupied home in Vienna, obscuring his personal artefacts relocated in London.
I can highly recommend the Gestapo to everyone

With kind permission of the Freud Museum London and the Sigmund Freud Museum Vienna
