Project information

Duration (no. of months): 36
Web-site: www.evoked.info
Project partners:
Norwegian Geotechnical Institute, Norway (p.nr. 20170408)
Swedish Geotechnical Institute, Sweden
Deltarves, the Netherlands
Christian-Albrechts University Kiel, Germany
Larvik Municipality, Norway
Värmland County Administrative Board, Sweden
Province of North Brabant, the Netherlands
Waterboard Drents Overijselse Delta, the Netherlands
City of Flensburg, Germany
Acknowledgements
Research funding organizations

This work is also supported by in-kind contribution from end-user partners:
Larvik Municipality, Norway
Värmland County Administrative Board, Sweden
Province of North Brabant, the Netherlands
Waterboard Drents Overijselse Delta, the Netherlands
City of Flensburg, Germany
Summary

The EVOKE website (www.evoked.info) has been operational since the first months of the project (fall 2017). This deliverable provides a description of the website structure and an introduction to the content of the different web subpages. The website will be utilized to raise awareness about the project and its results. In addition to a description of the project and project updates, the website will provide links to dissemination material (newsletters, Work Package (WP) deliverables, publications, and presentations).
Contents

1 Website as a communication channel 6
2 EVOKED website structure 6
   2.1 About the project 7
   2.2 Sub-projects 7
   2.3 Project management 9
   2.4 Reports and publications 10

Review and reference page
1 Website as a communication channel

EVOKED will disseminate the project’s activities and outputs to a wide audience through a variety of communication channels, including a project website – www.evoked.info. The website was launched during the first months of the project (fall 2017) and will be utilized to raise awareness about the project. In addition to a description of the project and project updates, the website will provide links to dissemination material (newsletters, Work Package (WP) deliverables, publications, and presentations).

2 EVOKED website structure

The EVOKED website is hosted by NGI and therefore embedded in NGI's external website structure (Figure 1). The structure is divided into the following web pages:

- About the project
- Sub-projects
- Project management
- Reports and publications

A short description and screen-shots to illustrate the layout of the website pages are included in the following pages of this document.

Figure 1: Screen shot of the homepage for the EVOKED website (www.evoked.info).
2.1 About the project

The first web page provides general information about the EVOLED project to include the main objectives, the EVOLED methodology and a brief introduction of the end-user partners and their climate service needs (see Figure 2). Furthermore, the latest deliverables are posted at the top of this web page.

Figure 2: Screen shot of the EVOLED web page ‘About the project.’

2.2 Sub-projects

EVOLED's research activities are organized in four Co-production Work Packages (WPs) that mirror the EVOLED framework (Figure 3). Details for each of the four WPs and the case study sites are described under the Sub-projects web page (Figure 4 and Figure 5). From each WP web page it is also possible to navigate to the other WP web pages.
Figure 3: Screen shot of the overview web page of the 'Sub-projects' which are related to WPs.

Figure 4: Screen shot of the web page for each WP under 'Sub-projects.'
2.3 Project management

Information about the EVOKED management structure is provided under this web page which includes an illustration of the project organization and multidisciplinary collaboration between and within work packages and with end-users as partners (Figure 6). The project organization figure highlights different roles for the consortium and provides a framework for the distribution of WPs among consortium members.

Figure 6: Screen shot of the EVOKED web page 'Project management.'
A more detailed description of all project partners can also be found under the Project management web page (Figure 7).

Figure 7: Screen shot of the EVOKED project partners on the web page for 'Project management.'

2.4 Reports and publications

All publicly available materials will be published on the EVOKED website and will be downloadable including reports, newsletters, and presentations (Figure 8). Links to publications emerging from EVOKED will also be added if appropriate and possible.
